The Al Amin Stud

... is located at Oraby Society, only 30 minutes from Cairo International airport.
 founded 10 years ago by Mr. Mohamed Amin and Mr. Peter Gross.

Both of them were breeding already years ago in Egypt and Germany before they started the fusion of their breeding programs, based on a very deep friendship.

The basic of the common breeding is the Dahman Shahwan strain, traced back to the foundation mares Moheba II (Ghazal x Malacha) and her fullsister Malikah.

These mares are: Maboubah, Molesta I, Bint Mona, Moheba Merlina and Ma'Alisha.

The Dahman Shahwan strain is represented with following mares:

Foundation mare is the 24 years old MABOUBAH (Madkour I x Mahameh) with her daughters Bint Maboubah, Mabroukah, Miriya, Maboubah I and Masouda, as well as their progeny.

The fleebitten mares Moheba Merlina and Ma'Alisha go back to the fullsister of Moheba II, the legendary mare Malikah.

In the pedigrees of the two Dahman Shahwan mares Moheba Merlina and Ma'Alisha you will find the fullbrother to Ansata Halim Shah the stallion Ansata Omar Halim. We believe that this unique combination you will find only at Al Amin.

One of the great hopes for the future is the young stallion Manial (Ansata Safer x Molesta II), we expect with him great breeding successes and a big career.

Further mares which trace back to Molesta I are Monassah, a fullsister to Molesta II and her daughter Bint Monassah by E.T. Moufid.

Also the mares Omneya and Mahah as fullsisters by Sheikh el Araby out of Bint Molesta trace back to Molesta I and have produced remarkable progeny at Al Amin Stud.

Her son El Shahwan by Machmut (Ibrahim x Molesta) was bred several times to Maboubah, her daughters are represent now at Al Amin.

The Stallions of Al Amin

The last 6 years we had bred most of the mares at Al Amin with the stallions E.T. Ali Pasha and E. T. Moufid, both traced back to Moheba II and Malikah.

In the year 2010 Mohamed Amin bought the fleebitten stallion Radames II (Salaa El Dine x Ansata Rebecca).

His pedigree again enriches the precious blood of Bukra / Halima in our stock.

His first year of progeny he was producing with selected mares with great results. One of the most promising foal is out of the Mahfouz daughter Hekaya.

(Salaa El Dine x Ansata Rebecca)

The stallion Moulay Pasha (2003-2011) by Abbas Pasha I out of the mare Bint Maboubah was covering several mares in our stud as well as mares from other Egyptian breeders and impressed with outstanding foals.

A unique product was the breeding of the fullsister to his fullbrother, Moulay Pasha x Bint Bt. Maboubah, that grew into a remarkable young mare named Mahfouzah - inspired by Judith Forbis who bred in the past the full siblings Bint Mabrouka and Morafic.

The result was the stallion Ansata Shah Zaman who has influenced the long croup to Ansata Halim Shah.
